

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT OF THE COUNCIL

ΟF

the Pipe Roll Society.

Read at the Committee Meeting on the 13th July, 1894.

THE present volume, Vol. XVII., is issued to subscribers as the equivalent for their subscription for the year 1893-4.

It contains a collection of the earliest Feet of Fines preserved in the Public Record Office. Of these, four belong to the reign of Henry II., and the remainder to the first seven years of the reign of Richard I. At some future time, perhaps, the series will be carried on to the end of the reign of that king.

The documents have been arranged in chronological order, those in which the day of date is not known, but only the year of the king's reign, being placed at the end of such year.

As our subscribers are aware, two volumes containing early Feet of Fines were printed in 1835, by direction of the Commissioners of Public Records, under the editorship of Mr. Joseph Hunter.

In these volumes the Feet of Fines are arranged by Counties, in alphabetical order, and the work was never completed, so that the only Counties treated of are Bedfordshire, Berkshire, Buckinghamshire, Cambridgeshire, Cornwall, Cumberland, Derbyshire, Devonshire, and Dorset.

The present volume, on the other hand, contains all the Feet of Fines for the whole of the kingdom for a certain period, which have been preserved in the Public Record Office.

If the volume had been arranged by Counties, on Mr. Hunter's plan, the Committee would have given their subscribers little or nothing which had not been printed before.

In Vol. XVIII. the series of Pipe Rolls will be resumed. The transcript is ready to be sent to press.

The following list describes the publications up to date.

For 1883-4, three volumes:-

- I. The Pipe Roll of the Fifth year of King Henry II., A.D. 1158-9 (9 rotulets).
- II. The Pipe Roll of the Sixth year of King Henry II., A.D. 1159-60 (7 rotulets).
- III. Introduction to the Study of the Pipe Rolls.
